

Expertwins

[Noun] 1. The rare quality of expertise coming together from more than one source for winning outcomes. Especially in housing circles.

2. ARK a leading provider of governance consultancy is coming together with 3C a leading provider of data governance to provide a comprehensive governance assurance service.

The new normal requires new approaches

We've joined forces to provide peace of mind to boards, committees and executive teams in the social housing sector with a new

Governance Assurance Service

A complete range of **tools, solutions, services, training and support** designed to help housing associations and councils remain compliant, make better decisions and safeguard their residents.

The new governance offering will deliver:

- Compliance
- Value for money services
- Improved customer service
- Increased social return on investment
- Attainment of key strategic objectives
- Confidence and assurance

Capitalise on
our specialised social
housing sector knowledge
and combined 40+
years of experience.

Expertwins. Together we'll support you with your data and governance initiatives.
